ELGA Purelab Chorus 1 Complete (10 liters/hour)

BRAND NEW - ELGA Purelab Chorus 1 Complete (10l/hr) with 30 liter Reservoir. PURELAB Chorus 1 Complete provides a complete solution from potable tap water supply to ultrapure water, and is ideal for laboratories needing up to 480 liters of 18.2 MΩ.cm ultrapure water. With its easy to use ergonomic design, water can be measured and dispensed with confidence directly from the system. Recirculation of purified water through the reservoir maintains consistent peak water purity. Comes with mounting kit for both the unit and reservoir. Point of use 0.2 micron capsule filter and pressure regulator for tap water feed. Pre-treat kit for 10” slim line with bracket spanner and 8mm connection.
